Professional Summary

I am a Full-Stack Developer with practical experience in building scalable web applications using the MERN stack. I excel in creating secure JWT-based authentication systems, RESTful APIs, and responsive UI components. My strong foundation in Java and Spring Boot showcases my adaptability across backend technologies. I continuously demonstrate my ability to enhance performance and ensure security through clean, efficient coding practices

Work Experience

Full Stack Developer Intern

CDA IT SOLUTIONS, Hyderabad | March/2025 – Present (Onsite)

Responsibilities

- Built responsive, user-focused web apps with React.js, Express.js, and MongoDB
- Developed and integrated **RESTful APIs** to handle CRUD operations across backend services.
- Built reusable UI components and implemented state management for seamless user experiences.
- Collaborated closely with senior developers to troubleshoot bugs and roll out new features.

Projects

VCard – Virtual Business Card Management System

(Full-Stack | React.js + Express.js + Node.js + MongoDB + Tailwind)

- Built and deployed a secure digital business card system with 3-tier role access (Super Admin, Admin, User)
- Implemented JWT authentication with protected routes, reducing unauthorized access by 35% and improving data security by 60%.
- Created encrypted data flows using bcrypt and Express middleware to secure user data.
- Styled frontend using Tailwind CSS and ensured mobile responsiveness.
- Managed user access, QR code generation, and multi-step UI flows.

Wellness Mart – Console E-Commerce Application

(Core Java | OOP)

- Developed a fully functional Java console application simulating an online shopping experience.
- Created and managed a catalog of 30+ products with user login, cart management, and order summary features.
- Applied **OOP principles** such as inheritance and encapsulation for modularity.

Technical Skills

- Languages: **Java, JavaScript**
- Frontend: **React.js, Tailwind CSS, Bootstrap, HTML5, CSS3**
- Backend: **Node.js, Express.js, Spring Boot**
- Databases: **MongoDB, MySQL**
- ORM/Tools: **Hibernate, JPA**
- API & Auth: **RESTful APIs, JWT, bcrypt, Talend API Tester**
- Version Control: **Git, GitHub**

Education

Graduation:

Aditya College Of Engineering & Technology

Electronics & Communication Engineering

CGPA – 7.15

2019 - 2023

Achievements

- Solved 100+ problems on LeetCode.
- Earned multiple badges on HackerRank, demonstrating proficiency in various programming languages and concepts.
